September 9, 2026 October 23, 2026

My name is Carolyn More I am 78 years old and I'm retired.

I'm so happy to have taken this class and interacted with such lovely people and over anointed teacher Mr. Rick.

I am not a beginner, I many years experience using the Microsoft Word system and leisure skills I've decided to begin organizing to to write a book about life. I can do it with this new laptop.

I will tell people about Ben Rose and this class and all the great things that are offered.
